860-301-4742

SKILLS | User experience, user interface design, web design, information architecture, wireframing, front-end development, rapid prototyping

TOOLS | Sketch, Axure RP, Balsamiq, InVision, Adobe CS, Zeplin, HTML5, CSS, SASS/LESS, jQuery

EXPERIENCE | **Product Designer** at VoiceOps Feb 2018 - Present

- Worked remotely with CEO, founders, and engineers to build new features and customer experiences
- Assist in design implementation with CSS/SASS, HTML, and React JS

UX Designer at Primacy Feb 2017 - Aug 2017

- Worked closely with management, engineering, and product teams to help understand and identify user needs and create elegant solutions
- Created wireframes, prototypes, user journey maps, and content audits to help foster an efficient and effective design process with clients

UI Designer at TicketNetwork Jan 2015 - Feb 2017

- Worked with product development teams to create new products, features, and re-designs
- Captured design requirements by creating wireframes, mockups, prototypes, and style guides
